PURPOSE OF THIS AMENDMENT TO THE APPLICATION

1. amending the following sections of the Application -

Section 8.a, Location of Facilities

Section 8.b, Design and Capacity of Facilities

Section 13.a, Construction Plan

Section 14.d, Environmental Statement

There also accompanies this amendment, a volume entitled "Amendments to Alignment Sheets, Section 8.a.3, and Design Drawings, Section 8.b.3" which contains alignment sheets and design drawings showing the design of the river crossings which the Applicant proposes for dual pipe line crossings and the location of the re-routing in the Fort Simpson area. As indicated in the introduction to the materials filed in support of this amendment, the changes in the routing require that certain of the exhibits filed in support of its Application be amended in the manner provided for in that introduction and shown in the portions of those volumes which relate to the above "Sections."

2. By an amendment to its application dated the same date as this amendment, the Applicant has similarly amended its application to the Department of Indian Affairs and Northern Development for the appropriate interests in territorial lands, which was filed by the Applicant with that Department on March 21st, 1974.
